The Ardoo 140 Personal Portable Multi-Use Hoist

is a problem solver, versatile and enhances and improves the quality of life for both the carer and those being cared for

Joanna, Brighton, UK

"The Ardoo 140 hoist is very easy to manoeuvre especially in tight places such as landings and corridors. I found the lift very comfortable and preferable to the large hoists that I used in hospital. I'm looking forward to taking the hoist on holidays and also to the holiday cottage".

Kevin, Derry, Northern Ireland

"We are delighted with our Ardoo 140 hoist. It is so quick and easy to setup and collapse down for travelling by car or plane. We have taken the hoist to the beach, to visit family, away for weekends to hotels and in particular, on our Summer holidays to Lanzarote. The Ardoo 140 hoist has given Sean and our whole family a new lease of life and the freedom to lead a more active normal life"
